LIVESTOCK QUOTATIONS.

Chicago.

By International News Service.

The stock would have advanced anyhow because of the record acreage to be reaction carried prices down in the final trading today, most issues were left with net advances as a form result of the days business. Trading was on a light scale, but it was confident throughout. A feature was the sharp movement among industrials. There was ample reason for this activity in the knowledge that congress is so hopelessiy involved in investigations as to make it impossible that any tariff reform of importance be done this year. This and the fact that the trust busted encouraged traders.

The stock would have advanced anyhow because of the record acreage to be planted in all crops this year. The answer of the coal operators to their men was published. It provided the industry and the industry and the miners have prosted the last ten years. The refusal of the British miners to accept the victory they have won surprises lessiy involved in investigations as to make it impossible that any tariff reform of importance be done this year.

The atock would have advanced anyhow because of the record acreage to be planted in all crops this year.

The atock would have advanced anyhow because of the record acreage to be planted in all crops this year.

The atock would have advanced anyhow because of the record acreage to be planted in all crops this year.

The atock would have advanced anyhow because of the record acreage to be planted in all crops the planted in all crops

The tobseco and sugar trusts made annual reports showing record earnings. Tobseco earned about 55 per cent on its common stock and sugar earned double its dividend. The earnings of the sugar trust are largely caused by the failure of the beet sugar crop in Germany last summer, so this year cannot hope to equal them. In the case of the tobacco companies, however, there is no reason for expecting anything less than new high record earnings this year.

Real Competition.

Not only was the tobacco crop a fallure in the United States last year, thus making raw material high, but the fragments of the trust are new all at work giving the independents real competition, something they hesitated to attempt while under the hand of the courts. Absence of the name of Thomas F. Ryan in the list of tobacco directors is noticed. He sold out months ago and is a free lance.

The advance in Harvester was on expectation of a plan for segregation. It touched a new high record for the year.

BEARS RAID WHEAT

Drop of a Cent or More Under

Tuesday's Figures; Corn

and Oats Off.

CHICAGO. March 13.—Signs that there was a liberal floating supply of wheat in the market today developed more courselves. Brean New York Together.

Over their private wire yesterday afternoon:
Paine, Webber & Co. Boston.—The market opened strong today on expectations of a favorable outcome of the British coal strike conferences, but nothing of importance materialized in that direction and the close was slightly reactionary. In this country the operators refused the demands of the miners in full, at a joint conference held in New York today between the anthracitie operators and representatives of the United Mine Workers. Indications are that the Lawrence textile strike will come to an end this week. We do not favor following more of a favorable nature happens and would buy only on sharp declines for a time market today developed more cour-

me advance any further units something was a liberal floating supply of wheat in the market today developed more courage among bear traders than at any time in months. Latest figures showed a drop of 1 %2 to 14 %1 to under last night. There was a net loss of 2c to le in corn, and a shade to ic for oats. Hog produce, and a shade to ic for oats. Hog produce its finished the same as last night to 5c up. It was a day of almost continuous declines in the wheat pit.

It was a day of almost continuous declines in the wheat pit. When the comparatively on May contract the close when a group of houses last fall was forcested in the winter crop belt. The worst weakness came just before the close when a group of houses last fall was forcested in the market seemed unable to digest. Between the opening and the last sale May ranged from \$1.02\$ \$\text{Mil}_{10}\$ \$\text{C}_{10}\$ \$\t
